

GAVA TECH

INDUSTRIAL FILTRATION SUPPLY CHAIN

Company Profile

Air Filtration

Filter Cloth & Bags

Filter Media

Cartridges

RO Membranes

Water Treatment Consumables

Clean Industry, Clear Future

WHO WE ARE

About GAVA TECH

GAVA TECH is a **sub-brand of GAVA focused on industrial filtration**, providing **one-stop supply of filtration media and environmental consumables** for factories and engineering customers. We connect factory supply networks in China (mainly Zhejiang and Jiangsu) to industrial customers across mainland China and export markets in Southeast Asia, the Middle East and North America — filters, filter bags, filter cloth, cartridges, membranes and water-treatment consumables, all in one place.

Who We Serve

Domestic Industrial Customers

Electronics, pharmaceuticals, food, plating & PCB, water treatment, environmental engineering.

Export Customers (SEA / Middle East / North America)

Water plants, engineering contractors, distributors and project owners needing stable supply and standard export documentation.

Our Background

Family-Factory Heritage

Rooted in Zhejiang, China since 2002, serving large customers in power, metallurgy and semiconductors with two decades of MRO and distribution experience — built on delivery, trust and reputation.

PRODUCT RANGE

Eight Categories, One Stop

Standard stock plus custom manufacturing (by drawing or sample).

Air Filtration

Pre / Medium / HEPA / ULPA / High-temp / V-bank /
Liquid-seal

Filter Cloth

Filter press cloth PP / PET / PA, desulfurization cloth,
sludge dewatering mesh

Filter Bags

Liquid filter bags size 1-5 (PP / PE / Nylon), dust filter
bags

Filter Media

PET / PP / Aramid / PPS / Fiberglass / Basalt / PTFE-
laminated needle felt

Cartridges

High-flow, PP, activated carbon, stainless steel, dust, air,
hydraulic

Membranes

RO (ULP / ELP / BW / SW), Nanofiltration NF

Mesh / Screens

Nylon, polyester, stainless steel wire mesh

Water Treatment Consumables

Membrane housings, resins, control valves, SDI meters,
aeration media, activated carbon

APPLICATIONS

Find Your Industry

Each industry has a matching filtration & environmental consumable solution.

Industry	Typical Products
Electronics / Semiconductor	HEPA/ULPA air filters, pre/medium filters, UPW & process cartridges
Pharmaceutical / Food	HEPA filters, liquid filter bags, sanitary cartridges, RO membranes
Plating / PCB	Liquid filter bags, filter press cloth, precision safety cartridges
Wastewater / Sludge Dewatering	Filter press cloth, dewatering mesh, sludge treatment consumables
Environmental / Flue Gas	Dust filter bags, high-temperature bags, PTFE-laminated media, needle felt
Water Treatment / Purification	RO membranes, housings, ion-exchange resins, cartridges, SDI meters

OUR COMMITMENT

What Customers Care About — Our Promise

Customer Concern	Our Promise
Right selection, no guesswork	Selection with evidence: honest specs, recommendations by real working conditions
Total cost control	Total cost of ownership made clear: quotes with comparison, help you see lifetime / downtime / labor cost
Durable, low-maintenance media	Easy operation: replacement reminders + responsive after-sales
Procurement convenience	One-stop supply: eight categories in one order, fast delivery
Value & responsiveness	Cost-effective domestic products + local support
Quality confidence	Samples first + traceable data: test before you buy

WHY GAVA

Four Reasons

1**Family-Factory Backing**

Own production capacity as the base — air filtration fully self-manufactured, stable and traceable supply.

2**Direct Yangtze-Delta Sourcing**

Connected to factories in Zhejiang and Jiangsu, fewer middle layers, better price and lead time.

3**Full Range in One Stop**

Eight categories from own + partner factory network — one order, one delivery.

4**Real & Traceable**

Product data, quotations and orders fully documented — honest specs, promises kept.

Ways to Cooperate

Standard Stock | Custom by Drawing / Sample | Sampling & Trials | OEM / Private Label | Bulk Supply
| Export Support (SEA / Middle East / North America)

SERVICES

More Than Products — A Service Partner

Selection Support

Recommendations based on working conditions, media and requirements — avoid the "most expensive" trap.

Samples / Trials

Sampling and small-batch trials before ordering critical consumables.

Testing & Documents

Test reports, export documentation and private-label support available.

Delivery & After-sales

Fast delivery on standard items; usage guidance + replacement reminders.

How We Guarantee Quality

Honest specs · Samples first · Traceable data · Commit only to achievable lead times — every order is treated as a long-term partnership.

HOW WE WORK

Five Simple Steps

1

Requirements

Tell us the working conditions, media and requirements — we give selection advice.

2

Samples

Critical consumables: sample / trial first, verify before ordering.

3

Quote & Order

Transparent quotes, honest specs, order confirmation after agreement.

4

Production & Delivery

Fast dispatch for stock items; custom items delivered per agreed schedule.

5

After-sales & Reorders

Usage guidance + replacement reminders for a smoother long-term relationship.

Our Principles

Honest specs · Transparent quotes · Samples first · Realistic lead times — every order aims at a long-term partnership.

We Look Forward to Working With You

Inquiries, selection, sampling and customization — contact the GAVA TECH team.
